

# Air Source Heat Pump

CE ISO 9001

Using the R417 refrigerant which is stable, non-poisonous, superior performances. Because there is no fluorine, it is no destruction to the ozone layer, more green.

Engineering machine

Trade Nepal - Lampati Kalanki 01-5234160/9851014865

Model	TN-HP25KFXR-025UMII
Rated heating capacity	25kW
Rated Production Capacity	550L/h
Rated input power	6.25kW
Rated input current	14A
Maximum input power	13kW
Maximum input current	20A
Rated water temperature	55°C
The maximum water temperature	60°C
Rated voltage/frequency	380V~3N/50Hz
Protection against electric shock Type	I Type
Protection class	IPX4
Maximum pressure of exhaust side	50kPa
Minimum suction pressure side	0.05MPa
Interface Dimensions	DN36
Water pressure	≤0.6MPa
Connect the ground	≤10Ω
Ambient temperature	15~43°C
Decibel	57dB(A)
Tank- 1pcs	2000 L, Stainless Steel non Pressurized
Heat pump 1pcs	25kW
Controller-1pcs	Digital
Extra goods and service will be as per actual
